

'More Lane Cove than Lane Cove'

The Canopy Precinct is an active mixed-use public precinct with F&B, Performance Space, Nature Play Areas, and BBQ and Picnic facilities surrounding a central Village Square green space.

The design process was a hands-on, iterative collaboration with council, local community and retail owners that resulted in a considered, detailed space that [encapsulates the 'Lane Cove Aesthetic'](#) whilst also ensuring the design complimented the existing village centre.

Detailed consultation with local bush care groups resulted in the selection of locally endemic species to re-vegetate the public park.
